

Day of Science and Careers Scotland

5 April 2017

Day of Science and Careers Scotland 2017

Wednesday 5 April 2017
University of Edinburgh

Time Programme

- 09:30 Registration and Coffee
09:50 **Welcome and Introduction** Sharon Todd, SCI Executive Director

Part 1 - Science Based Roles - Jan Ramakers, SCI Scotland Group Committee & Consultant

- 10:05 **Innovation - A Genius Story**
Ms Lucinda Bruce-Gardyne, Genius Gluten Free Development Scotland
- 10:20 **Life as an Analytical Scientist in a Contract Research Organisation Environment**
Dr James O'Neill, Charles River Laboratories
- 10:35 **Life in Wee Pharma**
Dr Lyndsey Howard, Lamellar Biomedical
- 10:50 **Soil and Suitcases: my academic career pathway**
Dr Nicholle Bell, University of Edinburgh
- 11:05 Questions to Panel
- 11:15 **Build a network map**
Susan Bird, University of Edinburgh
- 11:20 Refreshment break

Part 2 - Where Science Meets Business - Dr Marc Reid, SCI Scotland Group Committee & University of Strathclyde

- 11:45 **Academic-Industrial Partnerships**
Rocky Kindt, Scottish Bioenergy at Roslin Biocentre
- 12:00 **Be Bold, Think Big**
Dr Elizabeth Fairley, Talking Medicines
- 12:15 **From the Cleanroom to the Boardroom: the Rocky Road from Researcher to Entrepreneur**
Mr Alex Ward, Razorbill Instruments
- 12:30 Questions to panel
- 12:40 **Build a network map**
Susan Bird, University of Edinburgh
- 12:45 Lunch and Networking**

Day of Science and Careers Scotland 2017

Wednesday 5 April 2017
University of Edinburgh

Time Programme

Part 3 - The Business of Science - Dr Sarah Walker, SCI Scotland Group Committee & University of Edinburgh

- 13:30 **An Inventive Career Path - How a Physicist Ended Up in Intellectual Property**
Dr Kate Adamson, Marks & Clerk
- 13:45 **Pull Out the Dagger – How to Avoid Being Your Own Worst Enemy**
Dr Marc Reid, University of Strathclyde
- 14:00 **Regulatory Affairs - When is a Medicine Not a Medicine?**
Mr Colin Brown, The Mentholatum Company
- 14:15 **The Science of Sales and Marketing**
Mark Zwinderman, SAS Environmental Services
- 14:30 Questions to Panel
- 14:40 **Build a network map**
Susan Bird, University of Edinburgh
- 14:45 Refreshment Break

Part 4 - Show You Mean Business - Dr Tiffany Wood, SCI Scotland Group Chair & University of Edinburgh

- 15:00 **CVs: Maximising Your Impact**
Susan Bird, University of Edinburgh
- 15:15 **How to Prepare for a Job Interview**
Daniel Younger, CY Partners
- 15:30 Questions for Panel
- 15:40 **Drinks, nibbles and networking**
- 16:30 End

SCI Scotland Group Events & Activities

The Scotland Group is active with a number of initiatives where 'science meets business.' Within our membership we aim to have involvement from industrial members from large multinationals to SMEs, academics and those working on the business side of chemical industries. The chemical sciences span a broad range of sectors including oil and gas, food and drink, healthcare and pharmaceuticals involving professions as broad as chemists, physicists, geoscientists, biologists, food technologists, engineers and medics in the development of new technologies and solving existing challenges. Business and management involvement brings value in ensuring that economic impact is met efficiently and appropriately.

The SCI Scotland Group is a regional focus group within Scotland able to reflect upon the challenges faced locally.

Here are some of our upcoming events and activities. Watch out for new events at www.soci.org/events.

► 2017

SCI Public Evening Lecture: Prof Steven Raynor - Science in a Post Truth World (live stream from London)	22 March 2017	University of Aberdeen
SCI Travel Bursary Applications	31 March 2017	Across Scotland
Scotland - 28th Regional Postgraduate Symposia (SCI Fine Chemicals Group)	04 April 2017	University of Aberdeen
Day of Science and Careers Scotland 2017	05 April 2017	University of Edinburgh
SCI Scotland Group PhD Student Competition	14 April 2017	Across Scotland
SCI Public Evening Lecture: Prof Glen Gibson - Getting to the Guts of Microbiology (live stream from London)	26 April 2017	University of Aberdeen
SCI Scholarship Applications	30 April 2017	Across Scotland
SCI Public Evening Lecture: Lord David Willetts - Securing the UK's future industrial success	23 May 2017	University of Aberdeen
Macro Group UK Young Researchers' Meeting	19 - 20 June 2017	University of Edinburgh
SCI Public Evening Lecture: Prof Michael Kelly Future Energy Needs and Engineering Reality (live stream from London)	28 June 2017	University of Aberdeen

SCI Scotland Group PhD Student Awards 2017

Deadline for applications: 14 April 2017

Calling all PhD scientific researchers at Scottish Universities!

SCI's Scotland Regional Group is offering up to twelve SCI student memberships to PhD students working in scientific research in Scottish Universities, to help with networking and professional development opportunities.

Award Benefits:

- ▶ One year's complimentary SCI membership (worth £25): which entitles the winners to:
 - ▶ Savings of up to 75% on SCI conferences and events (compared to standard, full registration fee)
 - ▶ Subscription to *Chemistry and Industry (C&I)* magazine
 - ▶ Discounts on book and journal purchases
 - ▶ Access to specialist technical groups for research discussions and networking
 - ▶ Eligibility to apply for scholarships and travel bursaries to attend conferences
 - ▶ Access to SCI's Mentoring Programme*
- ▶ Winners will be given opportunities to build their networks with academics and industrialists, and develop future skills to help with their onward careers
- ▶ The top three winning articles will also be published on www.soci.org and in *C&I Magazine*

Application Criteria

- ▶ Applications are invited from PhD students working in scientific research at a Scottish university
- ▶ Please submit a 600-word article describing your PhD research project and its relevance to the SCI strapline 'where science meets business'
- ▶ Applications should be written in a format suitable for publication in a scientific news magazine read by scientifically literate members of the general public (such as *New Scientist*)
- ▶ Please visit <http://bit.ly/SCIPhD1> to view the application criteria
- ▶ Applications should be made via: <http://bit.ly/SCIPhD2> by 14 April 2017.

*subject to certain criteria. Please contact mentoring@soci.org to find out more

Apply today!

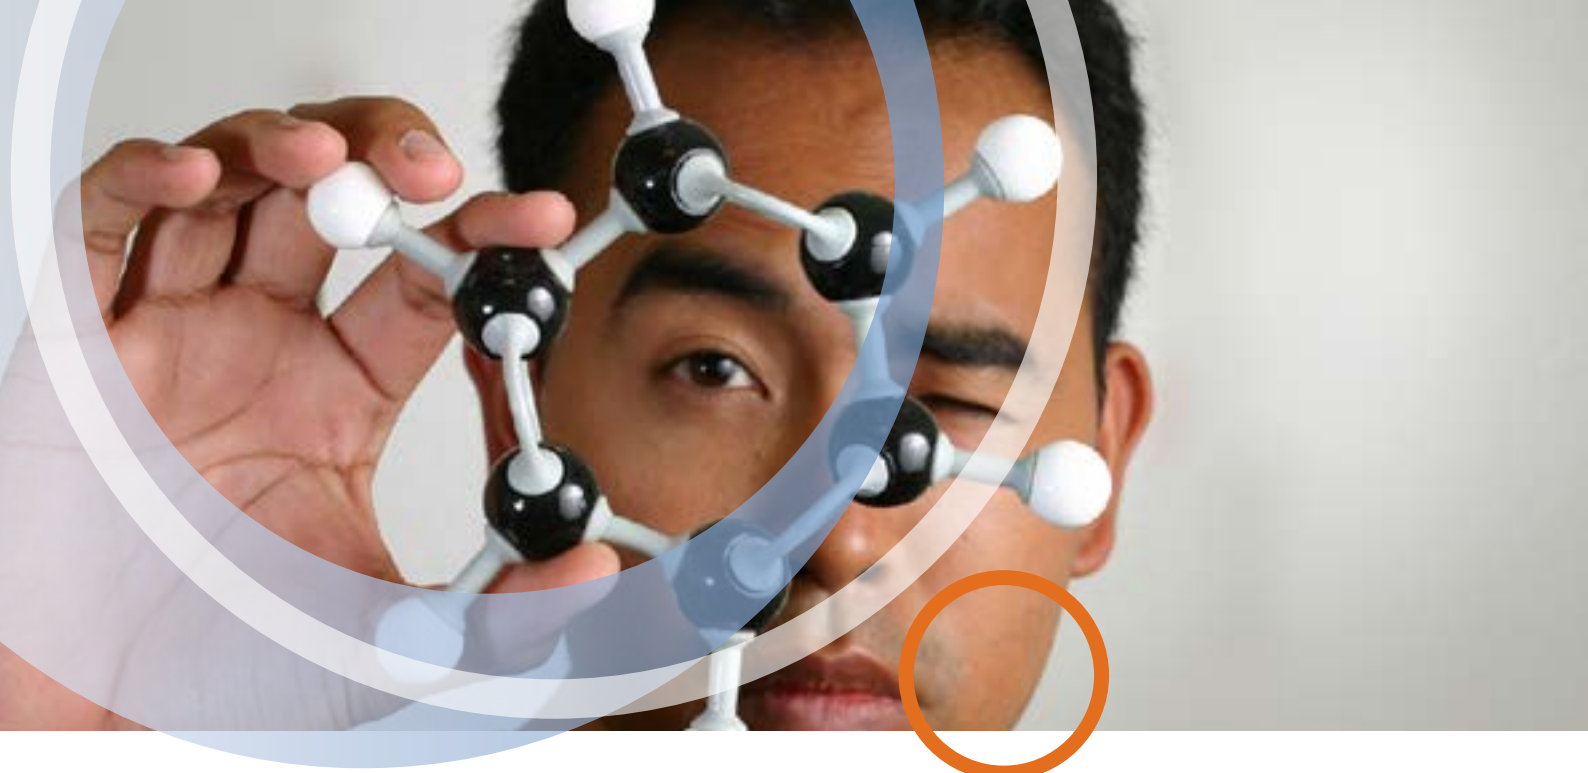

E: awards@soci.org

T: +44 (0)20 7598 1594

www.soci.org/awards

Organised by SCI's Scotland Group

SCI Scholarships

£5,000 will be awarded to the best and brightest. Are you one of them? We are looking for PhD students with a track record of academic achievement who are also great science communicators.

If you are a PhD student in the UK or Republic of Ireland approaching the 2nd year of your research degree, you are eligible to compete for an SCI Scholarship worth £5,000 over two years to help support your studies.

Applications are invited from students within all areas covered by SCI's diverse, multi-disciplinary technical interest groups across the scientific and engineering spectrum:

- ▶ Industrial biotechnology, biosciences or food science
- ▶ Chemical engineering to horticulture
- ▶ Environmental science to polymer science
- ▶ Applied chemistry to cement science
- ▶ ...and much more! www.soci.org/Membership-and-Networks/Technical-Groups

In addition to the scholarship, you will benefit from publishing opportunities, access to a high-calibre network to help launch your career, and opportunities to present your work and raise your profile within the scientific community. SCI Scholarships are prestigious and competitive awards, well-respected by industry professionals and academics.

An SCI Scholarship is an important addition to your CV.

The annual deadline to receive completed applications is **30 April**
Apply online: www.soci.org/awards/scholarships

SCI Travel Bursaries: A world of knowledge at your fingertips

Are you planning to travel to a conference or site visit and in need of funds? Then look no further than the SCI Travel Bursary scheme!

SCI offers travel bursaries of up to £1,500 which contribute towards the development of early career researchers. Previous travel bursary winners have travelled the globe and have gained more than just financial support. Through their bursary they have broadened their vision and been able to share cutting-edge knowledge to an international audience whilst networking with eminent scientists from around the world.

Reflecting SCI's multidisciplinary nature, we offer several Travel Bursaries in a vast array of scientific disciplines. Our Travel Bursary Winners come from diverse backgrounds - from food and agrisciences, through to environment, energy, materials and health.

For a full range of SCI's Technical Interest Groups, please visit: www.soci.org/membership-and-networks/technical-groups

Award

- ▶ AJ Banks: food science, food engineering & technology
- ▶ Messel: chemical and biological sciences & engineering
- ▶ Richardson: process engineering, process chemistry & related topics
- ▶ Leverhulme: for applicants in the Liverpool & North West Region
- ▶ Rideal: Colloid & Surface Chemistry
- ▶ David Miller: horticulture & plant science

Deadline

- ▶ 31 March
- ▶ 31 October
- ▶ 31 March
- ▶ 31 October
- ▶ 31 March
- ▶ 31 October
- ▶ 31 March
- ▶ 31 October
- ▶ 15 April
- ▶ 15 October
- ▶ 13 April

Travel Dates

- ▶ 1 July - 31 December
- ▶ 1 January - 30 June
- ▶ 1 July - 31 December
- ▶ 1 January - 30 June
- ▶ 1 July - 31 December
- ▶ 1 January - 30 June
- ▶ 1 July - 31 December

What's your bright SCIdea? - Register your interest

SCI was established to promote and encourage collaboration between science and business, with a particular focus on improving the areas of agri-food, materials, health & wellbeing, energy and the environment. To enhance scientists' business acumen, SCI is launching an innovative national competition, together with a business training workshop. If you have a novel, scientifically plausible idea and are keen to develop your understanding of business planning then enter the bright SCIdea competition. This is an excellent opportunity to develop your skills, network with future employers and win a cash prize!

How to enter?

- ▶ Form a team of 2-5 students and come up with your bright SCIdea which supports an idea to solve a real world problem with a scientific solution
- ▶ Attend the training workshop which will cover producing a business plan and pitching your idea to investors (at least one team member must attend the training to enter the competition)
- ▶ Produce a full business plan following the training session
- ▶ Shortlisted teams will pitch their business plan to our judging panel for the chance to win £1000

Benefits

All entrants will receive free, professional training from leading experts.

Finalists will be invited to present their idea in front of their peers, judges, and industry leaders, which will provide an opportunity to build skills in scientific communication and business. Your profile will be raised amongst the scientific and business community and there will be opportunities for training and mentoring.

Prizes

The winning team will receive:

- ▶ A cash prize of £1000
- ▶ One year SCI membership for each team member
- ▶ An opportunity to present their idea at an SCI event

SCI Early Careers – start your career connected

Discover a range of options for early career stage scientists and engineers to share knowledge and experiences with others across the UK and beyond. SCI supports undergraduates, PhD students, postdocs and those starting out in industry and academia or returning after a career break, to enhance career prospects, stay informed and develop a lifetime of contacts.

Awards

SCI is committed to investing in the development of Early Career Scientists who will make up the chemical research bodies and industrial talent pool of the future. A history of generous endowments made by past members enables SCI to offer a range of bursaries, fellowships, scholarships and studentship, with SCI's College of Scholars supporting Scholars throughout

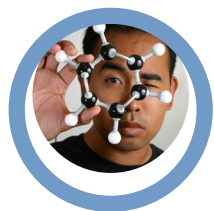

Conferences and Events

Each year SCI organises around 250 conferences and events, reaching thousands of people via lectures, site visits, competitions and networking meetings. A number of the events run by SCI's Interest Groups are aimed at Early Career Scientists and we work with partner organisations such as the Royal Society and Sense about Science to target those starting out.

Networking & Mentoring

Our personal network enables members to come together and foster commercialisation and innovation. Working with our more experienced members, Early Career Scientists can receive general careers advice or answers to very specific questions arising through their work or research. Training opportunities can be accessed in-house or through our multi-disciplinary network.

Recruitment and Personal Development

SCI has a wide range of Technical and Regional Interest Groups, covering themes across Food, Environment, Health, Materials and Energy. SCI Members have the opportunity to get involved with the Group Committees as well as SCI's Governance Committees. Becoming an active volunteer or SCI Ambassador for any of the Groups or committees will create and strengthen your skills in networking, event planning, leadership, team work, budgeting and marketing.

- ▶ >10 historic medals
- ▶ 10 memorial lectures
- ▶ 15 major awards

- ▶ ~ 2500 people reached each year
- ▶ 250 technical conferences and informative events

- ▶ 18 Technical Interest Groups
- ▶ 9 Regional Interest Groups
- ▶ 4 International Groups

- ▶ ~ 2 Early Careers events per month

SCI is a unique multi-science and multidisciplinary forum where science meets business.

For further information, please visit us at: www.soci.org

SCI Early Careers Benefits

Access to Awards

Travel Bursaries

Travel Bursaries are offered twice a year to promising researchers to attend conferences and/or visit relevant research institutions. Awards of up to £1,500 are available to support travel relating to the diverse areas of interest across SCI's Technical Groups including; Food Science, Horticulture, Chemical & Life Sciences, Process Engineering, Colloid and Surface Science and Carbon Science.

Scholarships, Fellowships & Studentships

SCI Scholarships are prestigious and competitive awards, well-respected by industry professionals and academics and are worth £5,000 over two years. Applications are invited from across the scientific and engineering spectrum. For recent food engineering graduate or post-graduate students and non-UK residents we offer the Seligman APV Fellowship worth £11,000, to come to the UK and dedicate a continuous period of up to six months on project based studies. The Daphne Jackson Fellowship offers flexible, part-time, paid fellowships to scientists, engineers and technologists who have taken a career break of two or more years for family, caring or health reasons. The RS/SCI Studentship scheme, was set up with the legacy left by former SCI life member Sydney Andrew, provides funding for two RS Fellows, to enlist a student to support their project.

Access to Events

Education and Training Events

SCI is accredited by the CPD Standards Office, and all SCI members are offered a range of support and training opportunities, such as science specific training and industry/applied training through our range of multidisciplinary events that could earn you CPD points.

Recruitment Events

SCI runs 5-6 recruitment events each year across the UK for science students and early career researchers. These are designed to attract STEM students into industry promoting jobs and offering employers an excellent talent pool from which to recruit.

Opportunities to present research

Regular competitions are held on a yearly basis including the Young Researchers in Agri-Food Competition, IFST Young Scientist Competitions and The National Retrosynthesis Competition, which allow Early Career Scientists to present their research to an audience of experts and their peers.

Access to the College of Scholars

SCI's College of Scholars was established to help current Scholars make the most of the opportunities an SCI Scholarship provides, and to make past and present Scholars aware of SCI resources that may be of value to them in their current research and future career. It seeks to support Scholars throughout the funded period and provide a platform for continued support while developing a strong network and building a base for future leadership. All scholarship and bursary recipients, all SCI prize winners and RS/SCI students are members of the College of Scholars.

Networking and Mentoring

SCI Ambassador Scheme

The SCI Ambassadors Scheme aims to improve links with universities across the UK through SCI's network of Early Career Scientists. This scheme asks SCI volunteers to promote SCI and its activities through their institution, therefore building their networking, marketing and leadership skills.

Mentoring Programme

This programme allows Early Career Scientists to network and connect with experienced members for advice and support.

Involvement with Committees

SCI Members have the opportunity to get involved with the Group Committees as well as SCI's Governance Committees which enables you to obtain and strengthen transferable skills outside of your usual expertise.

SCI is a unique multi-science and multidisciplinary forum where science meets business.

For further information, please visit us at: www.soci.org

SCI, 14-15 Belgrave Square, London, SW1X 8PS

T: +44 (0)20 7598 1500 / E: secretariat@soci.org / W: www.soci.org

SCI Ambassadors

The SCI Ambassador scheme was established to increase awareness of SCI activities in universities and industry, whilst also rewarding our most committed young members with opportunities for networking and professional development.

All SCI members are welcome to become an ambassador. The scheme is targeted towards university students (PhD and MSc) and those who are just starting out in industry or academia.

Why become an ambassador?

In recognition of their important role, we provide a number of benefits for ambassadors.

- **Online profile**

Promote yourself to experts in science and industry with a biography on the SCI website.

- **Meet new people**

SCI members and ambassadors come from many different organisations and regional areas. Engaging with SCI allows you to expand your network.

- **Mentoring**

Ambassadors are eligible to take part in the SCI Mentoring Programme - normally only available after two years of SCI membership.

- **College of Scholars membership**

Enrolment into SCI's College of Scholars which brings together young scientists and industry experts to offer exclusive additional opportunities for training and networking.

Supporting early careers

SCI's early career network aims to support those in the early stages of their academic or industrial careers with tailored events, workshops and forums. SCI also provides travel bursaries, scholarships and mentoring opportunities. See www.soci.org/early-careers for more information.

www.soci.org

What we want from you

Ambassadors are asked to promote SCI by sharing relevant events, awards information and the benefits of membership with their professional networks. Ambassadors can get further involved by organising events or joining a committee to develop their skills.

About SCI

SCI is a multi-disciplinary society connecting scientists and business people to advance the commercial application of science. Our aim is to share and exchange information, ideas, innovations and research. Members' interests in our growing network span sectors as diverse as food and bio-renewables, water, waste and environment, energy, materials and manufacturing.

Become an ambassador!

We are looking for more ambassadors - send an email to communications@soci.org with the subject line **SCI Ambassador** for more information.

SCI Activity Overview

SCI Today: Key activities are focused on translating knowledge, skilling, strategy and policy, and promoting science and industry

Networking & informing

Conferences & events

Benefits of SCI Membership

As an SCI member you will receive a range of benefits including access to a multi-disciplinary network with an interest in chemistry or related sciences. You will also receive updated news and information about the sector and SCI's involvement in it. The SCI membership network will help support your professional development as you meet potential employers or employees, develop collaborative relationships with peers, find experts in a myriad of topics, and even partners for business ventures.

Member Benefits	Standard/ Student	e-Member (online only)
Participation in a unique multi-disciplinary network in a science-based learned society, open to all	■	■
Monthly printed copy of Chemistry & Industry (C&I), SCI's respected in-house magazine - free of charge	■	
Digital download of 12 Issues per year of C&I magazine from iTunes and Google Play for your mobile device(s)	■	■
Access to C&I e-Book via the SCI website and online C&I archive	■	■
Public Evening Lecture series provided by nationally-recognised speakers	■	■
Enhance your CV by getting involved with Technical Interest Group (TIG) activities in a wide range of globally important strategic areas (e.g. food and bio-renewables, water, waste & environment, energy, materials & manufacturing and health & wellbeing)	■	
Grow your skills set by getting involved with Regional Interest Group (RIG) activities including lectures, networking and social events	■	
Sign up to receive e-alerts e.g. TIG/RIG events, SCI and C&I newsletters	■	■
Discounted rates for a wide range of conferences and seminars including those organised by partner organisations	■	
SCI journals subscriptions at a discount	■	
Up to 50% discount on all Wiley books except for encyclopedias and major reference works	■	
Inclusion in the SCI Members' Directory. Full members can also search and connect with all other members	■	■
Participation and contribution at the SCI AGM and annual Members' Forum - travel costs paid to Members' Forum	■	
Opportunity to present posters at events for SCI members, and a selected number of conferences	■	
Availability of travel bursaries, scholarships and grants	■	
Availability of Benevolent fund to support members who are facing hardship	■	
Early career support and participation in events for younger members	■	
Access to the SCI Mentoring Programme (members need to be in SCI membership for a minimum of two years; or have demonstrated some commitment to SCI - e.g. committee membership, event activity, or be a member of the College of Scholars)	■	
Society information, forum and debates via the website	■	†
Join the SCI e-Forum	■	■
Access to C&I webinars	■	■
Professional affiliation designated as SCImem	■	
Use of the SCI Members' Room	■	
Membership Fees		
Standard Member: £90 (£75 direct debit) Student Member: £25 (£15 direct debit) e-Member: £10		

† Yes but not all Members' only content

SCI Member Declaration

Charter, By-laws and Rules of the Society

I the undersigned, having applied to SCI to join as a member, hereby declare that I will adhere to the provisions set out in the Charter, By-laws and Rules of the Society. I further undertake to abide by the Members' Code of Ethics (copies available at www.soci.org/membership).

Data Protection Act 1998

All information we hold concerning you as an individual will be held and processed by SCI strictly in accordance with the provisions of the Data Protection Act 1998.

SCI will use the information supplied by you to provide and administer its activities and for the supply of products and services. We will not, without your consent, supply your contact details to any third party except where (1) such transfer is a necessary part of the activities that we undertake, or (2) we are required to do so by the operation of the law. SCI members have the right under the Data Protection Act 1998 to obtain personal data held on them.
